

# BETTER TOGETHER MEANS BETTER SERVERS.

Intel® Xeon® processors and Intel® server boards.

**Performance.**  
**Quality.**  
**Reliability.**

With Intel® Xeon® processors and Intel® server boards, you can take your business further.

Server solutions built with Intel Xeon processors and Intel server boards deliver:

- Exceptional performance
- World-class quality
- Great value
- Proven reliability

Intel offers a broad range of processors, server boards, storage, RAID, Gigabit Ethernet, and system management options. Whether your customers want the value and performance of an entry server or the business-in-a-box simplicity of the Intel® Modular Server, you will have all the elements you need for server success. Add to that the savings you get with the Intel® Enabled Server Acceleration Alliance (Intel® ESAA), and you're ready to grow.
